FOREWORD

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 4002/II was developed by Technical Committee ISO/TC 23, *Tractors and machinery for agriculture and forestry*, and was circulated to the member bodies in December 1975.

It has been approved by the member bodies of the following countries :

Australia	Hungary	Romania
Austria	India	South Africa Rep. of
Belgium	Ireland	Spain
Canada	Italy	Switzerland
Czechoslovakia	Korea, Dem. P. Rep. of	Turkey
Finland	Mexico	United Kingdom
France	New Zealand	Yugoslavia
Germany	Portugal	

The member bodies of the following countries expressed disapproval of the document on technical grounds:

Bulgaria
Denmark
U.S.A.
U.S.S.R.

Equipment for sowing and planting — Disks — Part II : Flat disks type D2 with single bevel — Dimensions

1 SCOPE AND FIELD OF APPLICATION

This International Standard lays down the dimensions of disks, having either plain or ball/roller bearings, for sowing and planting machines.
